

PRINTABLE RING CHART

USE THIS QUARTER TO MAKE SURE YOU PRINTED THIS CHART AT 100%

To find your ring size, use a ring you already own (or borrow if this is a surprise gift!)

Place the ring over a size circle

The inside of your ring should match the size circle.

If the ring falls between two sizes, order the larger size.

The wider the band, the tighter it may feel, so consider going up a half size when ordering.
